

BRC XXXIX Agenda 12 February 2011

1. Perpetual Trophy Naming

2. Arranging meetings

When the request for a date is made any member that is anxious to stay in the running must make this clear so that all efforts are made accommodate a date to suit. Once a date is agreed then any member that cannot then make it can request another date however if the request is too late and then members such as Peter C has already booked flight then the member must accept the meeting will proceed. If the member is not in a competitive position then perhaps not so much of a drama

3. BB Proposal for revised buy in and points system

- a) Propose a one off buy in of say \$10 which buys \$10,000 in chips as per usual. Saves hassle of money changing during the night
- b) Additional \$10,000 chips can only be received after all money lost on table. This is noted as a negative \$10,000 on the sheet
- c) No change to structured betting
- d) At the end of the night chip count is done including all negative chips.
- e) Prize money comes from pot minus \$10 and divided as follows:
 - 50% - 1st Place with 10 points
 - 30% - 2nd Place with 6 points
 - 20% - 3rd place with 4 points
 - 4th – (Mr Average) Money back (\$10 from the pot taken out) with 2 points
- f) No other players receive points or payment, max loss for the night is \$10 so no need to worry about early finish points problem
- g) Only negative is if you are ahead and want to leave you can take out of the pot a maximum of \$10 if you have enough chips (\$10,000) leaving you square for the night
- h) Positive is that you can play to the end of the night, stay in all hands and lose a max of \$10 on the night

4. Change of Avatar for Developer to TDK

5. Other business
